

This is an anonymous survey consisting of multiple questions. A few questions are open-ended questions where you need to type a few sentences or a short paragraph or two. Many MTurk workers do not like answering open-ended questions and tend to quit a survey once they see such questions. If a sizable number of people quit a survey halfway, the data quality of that survey would be compromised. However, our research depends on good quality data. Thus, please make sure you do not mind open-ended questions before taking this survey.

Please type the following sentence into the box below exactly as written if you still want to take the survey:

*I will answer open-ended questions.*
